

Safe Ship International Store

Why is Safe Ship the **BEST?**

Because, Safe Ship is *Completely Different*.

Safe Ship is recognized in the United States as the leader.
"THE BEST FRANCHISE CONCEPT OF THE 21ST CENTURY".

Your Safe Ship Store

Your Safe Ship Store is designed for efficient customer service. Our goal is to provide fast service, accurately.

The first view of the store shows the various shipping companies your store will represent. We will add more logos as needed for each store. Sizes of logos can be changed to meet local codes and the store's physical size.

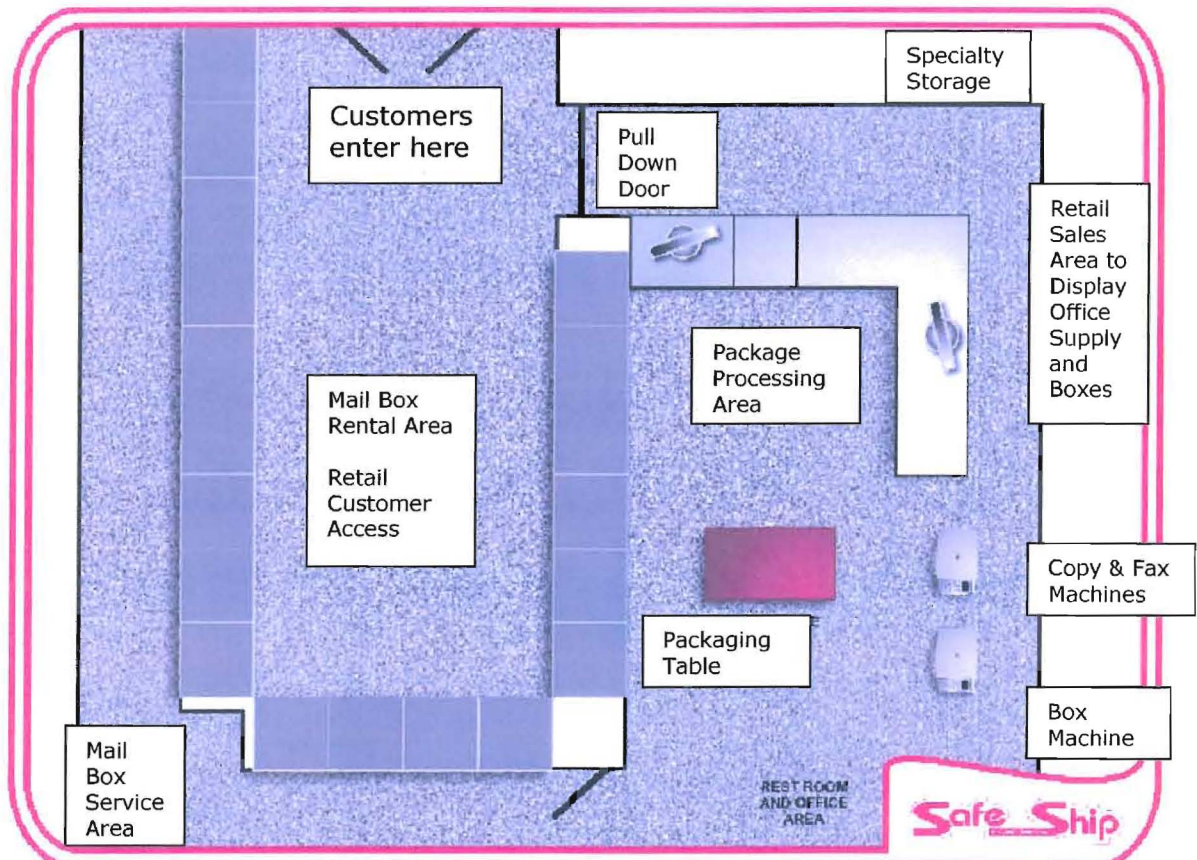

Your customer will enter directly into the mail box rental area. He will be able to access his personal mail from his mail box immediately upon entering your store. This section can be available 24 hours a day if you prefer.

If he is not coming to your store for his mail, he will make an immediate left turn to enter into the retail sales & shipping area.

The retail sales and shipping area will be separated by a door to allow access only when you have that section of the store open for business. This is your option and is your decision.

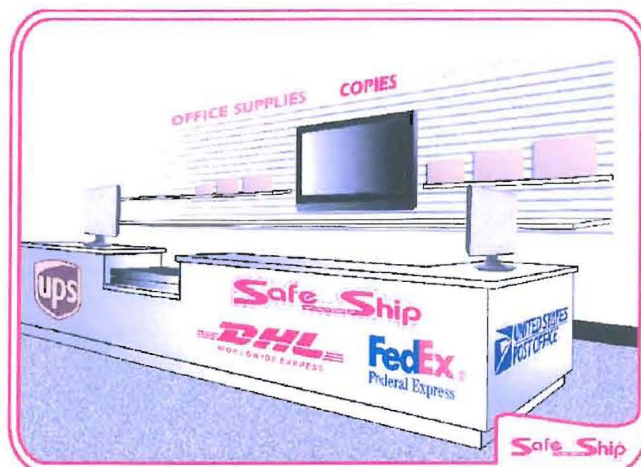

As we view the floor plan, you notice the layout of the store.

Your International Safe Ship Store layout is simple to accomplish and will function with as few as 1 employee in the beginning.

Your Package Processing Area is a very attractive area designed to service each customer very quickly. The television monitor will highlight all your stores unique services or special deals.

You will be able to service two customers at a time and can add additional employees easily as needed as your store grows.

Safe Ship allows for modifications to our basic store style. All modifications must be approved in advance by Safe Ship.

The Safe Ship International Store design is based on the Safe Ship store design used in the United States. Our franchise model store located in Ormond Beach Florida is the World's Largest Packing & Shipping store.

Every Safe Ship store uses the same basic layout and adapts the layout to the available store square footage.

The picture shown are from a few of our existing franchise stores.
